The most all-inclusive ultra-luxury voyage

Discover the benefits of 6-star cruising on board
Scenic Eclipse, The World's First Discovery Yachts™.

Astrolabe, Antarctica

Small ship cruising

Scenic Eclipse is an exclusive, ultra-luxury experience for only up to 228 guests (200 in Antarctica). Enjoy a personalised journey with a close to 1:1 crew-to-guest ratio.

World-class crew

Throughout your Expedition or Discovery Voyage, a team of dedicated professionals will deliver an exceptional level of service. They will go to the Nth Degree to ensure you enjoy every moment.

State-of-the-art technology

Scenic Eclipse has a Polar Class 6 rating and features a strengthened hull, forward bow thrusters and advanced propulsion systems. With customised stabilisers that are 50% larger than other ships and advanced sonar technology for detecting ice and underwater obstacles. This ensures comfortable and safe navigation through the roughest of waters.

“The revolutionary idea of Scenic Eclipse is that it’s a yacht, like any other private ultra-luxury yacht, but with state-of-the-art design equipment so we can travel further and safer”

*Senior Captain
Erwan Le Rouzic*

*The only exceptions are for a small handful of ultra-premium and rare wines and spirits. †Spa treatments at additional costs. ‡Flights on board our two helicopters, helicopter and submersible experiences are at additional cost, subject to availability and regulatory approval, weight restrictions, medical approval, weather and ice conditions. Unrivalled discovery

Enjoy an abundance of exploration on Zodiac, kayak, stand-up paddleboards[~] and nature walks. Led by a specialist Polar Discovery Team of up to 20 experts on Expedition Voyages and up to 15 experts on Discovery Voyages, gain deep insights into the nature and wildlife around you.

Multiple daily landings

By limiting our guest numbers to 228 in the Arctic and 200 in Antarctica, you can enjoy multiple landings each day with extended time on shore compared to larger ships.

Dine on extraordinary cuisine

It's truly unique for a ship the size of Scenic Eclipse to have such extensive, included culinary options, bars, and lounges. Indulge in a feast for all the senses created by an expert team, from casual to fine dining.

Owner's Penthouse Suite, Antarctica

Indulgent wellness

Feel rejuvenated in the Senses Spa[#]. Enjoy luxurious Scandinavian-inspired facilities, rejuvenate in the women's and men's saunas, thermal loungers and steam rooms. Group classes at the PURE: Yoga & Pilates studio and the state-of-the-art POWER: Gym are complimentary.

What does truly all-inclusive mean?

Leave your wallet safely in your suite and relax knowing everything is taken care of.

Each aspect of your comfort and peace of mind has been considered, including your airport transfers, tipping, and gratuities (on board and onshore). Our truly all-inclusive philosophy extends to excursions, all meals, and premium beverages[^] on board.

To take your experience to the next level, add a spa treatment[#], helicopter[^] flight or submersible[^] dive at an additional cost.

Lumière, Scenic Eclipse I

In the Polar regions, the difference is in the details

Jason Flesher, Director of Discovery Operations

Scenic Eclipse, International waters

Jason Flesher, Director of Discovery Operations, explains how Scenic Eclipse has been designed to deliver the ultimate guest experience in Antarctica, the Arctic and Fjords.

How does Scenic Eclipse differ from other ships?

As a Polar Class 6 classified ship, Scenic Eclipse's design and state-of-the-art technology allows us to take our guests further into Antarctica such as the Weddell Sea or the Ross Sea, and even have the potential for walks on sea ice. Our sustainability features also help to reduce our impact and protect these pristine environments.

Unwavering peace of mind

- Comfort Class 1 notation - lowest noise and vibration throughout the ship
- Strengthened hull, forward bow thrusters and electronic Azipod propulsion system
- Safe Return to Port and multiple redundant systems
- Advanced sonar technology to detect underwater obstacles
- Advanced Heating, Ventilation and Air Conditioning (HVAC) system for 100% fresh air

*Flights on board our two helicopters, helicopter and submersible experiences are at additional cost, subject to availability and regulatory approval, weight restrictions, medical approval, weather and ice conditions. Helicopters are unable to operate in South Georgia and Svalbard. Submersible is unable to operate in Svalbard.

Why do small guest numbers enhance the cruise experience?

With only up to 200 guests in Antarctica, and 228 in the Arctic and Fjords, our guests can enjoy more daily excursions, longer time onshore and more personal interactions with the Polar Discovery Team. This is particularly important in Antarctica, where IAATO limits guests on shore to 100 at a time as well as ships over 200 guests from reaching a number of pristine sites in South Georgia.

Weather and conditions permitting, we run two excursions a day for all guests, with the option of both landings and Zodiac cruises, so each guest has more opportunities to enjoy discovery experiences.

Airbus H130-T2 Helicopters

How efficiently can guests set out on Discovery excursions?

With the GPS Dynamic Positioning System, we can quickly stabilise the ship without dropping anchor and deploy all Discovery equipment, including Zodiacs, kayaks, stand-up paddleboards, helicopter[^] and submersible[^]. Guests can disembark within 30 minutes of arriving at a location. This is at least 15-45 minutes faster than other ships.

Soar above and dive below

The World's First Discovery Yachts are the only ships to have two helicopters[^] and a submersible[^]. Taking your polar exploration to see pristine locations inaccessible from the shoreline.

Our commitment to a sustainable future

At Scenic, we are committed to ensuring the pristine destinations and communities we visit retain their wonder. We've invested in state-of-the-art technology and sustainable initiatives to leave as small a footprint as possible.

- **State-of-the-art technology:** The GPS Dynamic Positioning system allows the ship to maintain location without dropping anchor onto the sensitive seabed. Our highly efficient engines reduce noise and vibrations for minimal disturbance to the wildlife.

On board herb garden

- **Biosecurity:** We adhere to IAATO and AECO protocols, ensuring that both our crew and guests maintain a safe distance from wildlife and strictly follow biosecurity guidelines.
- **Efficient fuel and engines:** Advanced emissions technology and IMO low sulphur fuel.
- **Wastewater treatment:** Advanced treatment systems to ensure minimal impact on local ecosystems.
- **Plastics Reduction:** We are committed to reducing our environmental footprint, with our ships already over 95% single-use guest plastic-free.
- **Local sourcing and on board herb garden:** We source from local markets wherever possible, and maintain an on board self-sufficient herb garden, significantly reducing waste and transportation-related emissions.
- **Conservation education:** Educational program that fosters a deeper understanding of the environments we visit.

Proud Members of:

What does it mean to be a member of IAATO and AECO?

As a proud member of IAATO (International Association of Antarctica Tour Operators) and AECO (Association of Arctic Expedition Cruise Operators), Scenic is committed to responsible and sustainable tourism in the Antarctic and Arctic regions. This means we adhere to strict guidelines, prioritise environmental protection, respect local cultures, and ensure safety while actively contributing to scientific research and awareness.

The Arctic or Antarctica: To which extraordinary destination next?

Here are the three questions you need to answer before choosing your polar destination:

First-timer or expedition expert?

If this is your first expedition cruise, Antarctica is the dream of many travellers. At the other Polar region, cruising the Arctic and Fjords is a chance to explore off the beaten path.

Solitude or society?

Aside from millions of penguins, the only residents in Antarctica are a handful of scientists, in research posts for a few months at a time. In the north, around four million people live permanently inside the Arctic Circle.

Penguins or polar bears?

We're talking wildlife superlatives in both extremes. The search for rare views of the polar bear is a highlight in itself. Paired with roaming Arctic foxes, reindeer, walruses, seals, and sea lions lazing about, they complete the fantastic Arctic wildlife. In Antarctica, penguins are the star of the show. They are joined by seals, whales, and diverse birds.

Hike at Signehamna, Svalbard

Emperor penguins, Weddell Sea, Antarctica

Hear from the expedition cruising expert

Jason Flesher, Director of Discovery Operations, shares his insights into these fascinating regions.

What's a standout experience you had in the Arctic?

Every time you spot any wildlife it is so magical. Interactions with Arctic foxes and watching young polar bear cubs frolicking and playing without a care in the world as their mum hunts and protects them is so precious.

And what surprises you the most in Antarctica?

How the wildlife doesn't fear humans and are just as curious of us as we are of them. The countless interactions with whales that

come towards the Zodiacs to see who and what we are, spending time with us, is simply remarkable.

Is there a type of traveller to suit each of the Polar regions?

Anyone with a sense of wonder and discovery is well-suited for both. You'll have an ultra-luxury ship as your base, guided by the world's top polar Discovery Team.

Discovery experiences

The key distinction between the North and South Polar region is visiting Arctic communities and added polar bear precautions. Some Arctic cruises are in Discovery Voyage mode which also include Scenic Freechoice and Enrich options to explore onshore.

Jason Flesher, Director of Discovery Operations

Zodiac excursion, Ilulissat, Greenland

Truly all-inclusive discovery

With industry-leading technology and a world-class Discovery Team, enjoy immersive experiences and multiple landings exploring hard-to-reach destinations few will ever visit.

The Discovery Team

With up to 20 members on Expedition Voyages and 15 on Discovery Voyages, this specialist team is comprised of experts from fields such as naturalists, marine biologists, historians, and glaciologists.

They will guide you through multi-sensory excursions that will be the highlight of your voyage. Enjoy enlightening lectures in the on board state-of-the-art theatre to deepen your understanding of the glacial landscapes, fascinating wildlife, history, and culture of the Polar regions you are travelling in.

Svalbard, Arctic

Immersive exploration

We remain the only ships to offer both helicopters[^] and a submersible[^] excursions, as well as an abundance of included exploration by Zodiac, kayak and stand-up paddleboard[^], led by your Discovery Team. Rest assured: Scenic Eclipse's GPS Dynamic Positioning system keeps the Discovery Yacht stable for easy embarkation on Zodiacs, with the expert team providing any support needed for all levels of mobility.

Remarkable wildlife

The Discovery Team will safely guide you in search of the most extraordinary encounters, whether it's watching breaching whales from a Zodiac in Antarctica or observing polar bears and their cubs in the Arctic.

Rich culture and history

On Discovery Voyages in Norway, Iceland, and in remote Arctic communities, you will be immersed in the local culture with handcrafted Scenic Freechoice and Scenic Enrich experiences.

Seasonal guide

Guarding their secrets in an icy grip for most of the year, Antarctica and the Arctic are a spectacle waiting to be revealed.

To help you decide what time of the year is best for you, here are some seasonal highlights to look forward to:

Antarctica

November – December

Penguins court, nest, and incubate eggs. Chicks hatch in mid to late December, while whales, like Minke and Humpbacks, arrive for feeding under almost 24-hour daylight. In South Georgia, King penguins balance eggs on their feet, and albatross reveal their gawky, gorgeous chicks.

January – Early February

Peak season on the Antarctic Peninsula presents bustling penguin rookeries and lounging seals. Ice retreats, opening up the Antarctic Circle and the Weddell Sea. Adolescent chicks fledge and are curious, often approaching visitors. The days are long, and temperatures rise above 5°C, the warmest of year.

Almost entirely covered in thick, permanent ice, East Antarctica and the Ross Sea are only accessible during mid-December to January, with just three departures each season. The coasts of East Antarctica and the Ross Sea are home to seabirds, penguins, and seals, which feed in the surrounding ocean, including the Emperor penguin.

King penguins, South Georgia

Polar bear, Svalbard

The Arctic

June – Early July

Puffins, gannets, and guillemots feed their chicks on dramatic cliffs. Humpback whales migrate along Norway’s coast and migratory birds gather in snow-free areas. Polar bears emerge with their adorable cubs under nearly 24 hours of daylight.

Mid-July – Early August

Millions of migratory birds fill the skies, while seabird cliffs echo with the sounds of growing chicks. Seals gather at algal blooms and polar bears impart crucial hunting skills to their cubs. Arctic wildflowers burst into bloom, painting the tundra with vibrant colours.

Mid-August – Early September

This is a time of transition, with whales feeding off continental coasts and Arctic foxes searching for late-season chicks. Glacier fronts calve dramatically, reshaping the landscape. Tundra walks reveal ripe berries, and the evening sky comes alive with stunning sunsets. With the receding ice, it’s the only time to visit the remote Svalbard archipelago.

Tom Götter, VP Oceans Hotel Operations for Scenic Group, reveals his inspirations and challenges in creating the most luxurious dining experience in the world's remotest locations.

What sets the Scenic Eclipse culinary experience apart?

Scenic Eclipse is innovative in many ways, including the dining aspect. We are the only ship at sea offering the à la carte spectrum we do, with as many variances and recipes. With up to 10 dining experiences, we have many more options, with menus changing every day.

What's involved in preparing for a polar voyage?

We plan six to eight months in advance. Antarctica is especially challenging because it's at the end of the world, with only wildlife and ice. I need to be extremely organised and accurate with my orders, but also have to be flexible because there will always be surprises.

What inspires you when creating these ultra-luxury dining experiences?

A lot of people say cruise ships aren't as good as restaurants on land. So, I want to prove them all wrong, and that comes down to the crew - we truly believe we can make a change here. We've done it in many aspects already, like elevating street food to luxury at the Night Market experience.

How do you ensure a diverse dining experience in such remote locations?

The ship itself gives us a huge advantage here. A regular cruise ship only has a handful of dining venues, and one is usually a buffet. So, it's easy to get bored. With up to 10 dining experiences, we have many more options.

Did you know?

Scenic Eclipse is the only cruise ship growing its own micro-herbs, supporting our sustainability efforts. Using a hydroponic system with recycled water and light, we yield around 60kg annually, avoiding waste from ordering produce.

Polar packing guide

Here's a handy guide on what to pack for your voyage of a lifetime.

Discovery Centre, Scenic Eclipse

What is provided?

- A wind-proof, waterproof, complimentary hooded parka designed for polar Expedition Voyages will be delivered to your suite when you board Scenic Eclipse. This is yours to keep.
- Insulated water bottle that is yours to refill at our filtered water stations during your journey.
- Complimentary use of polar boots for the duration of your Expedition Voyage.
- Trekking poles, personal flotation devices, dry suit for kayaking and stand-up paddleboard (fitted on board).
- Personal in-suite binoculars so you can be immersed in every moment of wonder.

You'll be asked to select the desired size for your parka and polar boots prior to your voyage. Rest assured: if you need a different size once you're on board, our team will assist you in finding the perfect fit and promptly supply you with the appropriate clothing and footwear.

How to dress for the Polar regions?

To stay comfortably warm during your voyage, follow the smart layering choices below.

- Base layer - tops and bottoms that insulate and wick moisture made in fibres such as polypropylene, merino wool, and other synthetics.
- Insulation layer - fleece top and pants or lightweight loft jacket or vest.
- Waterproof outwear - complimentary Scenic Eclipse Parka and lightweight pants; avoid pants with Velcro as these can be a biosecurity hazard.
- Thermal, wool and synthetic socks.
- Accessories - wool hat/beanie, neck gaiter, waterproof gloves, sunglasses with UV protection, lanyard for your mobile phone.
- Sunscreen and lip balm to protect from windburn.

Can I hire polar clothing?

We've partnered with Ship to Shore, which has specialised in providing quality expedition clothing and equipment for travellers in Antarctica for over 30 years. On Scenic Eclipse Voyages, you will have the option to buy or rent gear that can be sent directly to the ship.

Extra tips when exploring...

With a range of included Scenic Freechoice and Scenic Enrich experiences, these voyages will take you on onshore excursions to explore remote communities, historical towns with cobblestone streets and nature walks. Be sure to include comfortable, sturdy shoes and a day bag to carry your belongings.

“Experiencing everything through the guests’ eyes and experiences. That’s where the magic is. That’s the beautiful thing that I love.”

**Jason Flesher,
Director of Discovery Operations**

“On Scenic Eclipse you have incredible technology that you don’t find on any other ship. It offers much more flexibility and is a really versatile yacht.”

**Captain
Erwan Le Rouzic**

“I want to make sure that people see cruise ships in a different way. Guests will say ‘I’ve never had food like this.’”
